## Introduction

La Cruz is the tenth canton of the province of Guanacaste, established in 1969. It borders Nicaragua to the north and contains the main border crossing between the countries (Peñas Blancas).

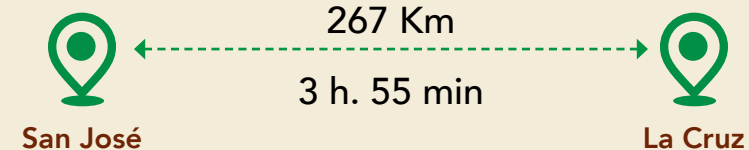

La Cruz is located on the shores of what is now known as the Mirador de La Cruz, from where you can see wonderful and impressive sunsets in which the sun hides in the Pacific Ocean, on the wide horizon. This viewpoint and the Santa Rosa National Park are its main tourist attractions. The Casona de Santa Rosa is a special destination, a monument to the history of the country that has been preserved since the mid-nineteenth century. The beaches of La Cruz are wonderful, with the best-known options including: Soley, Rajadita, Copal and Pilas. Santa Rosa has some of the most beautiful beaches in Costa Rica.

### How do you get there?

# General Tours La Cruz

## Tour to Santa Rosa

Santa Rosa National Park is a mixture of history and nature, located in Guanacaste and considered a UNESCO World Heritage Site.

The scene of the historic battle of March 20, 1856, Santa Rosa National Park is the only protected wilderness area that has a historical museum within its territory.

This site preserves the only patch of tropical dry forest in Mesoamerica. In addition, the area is closely connected to nearby rainforests and cloud forests, which help explain its incredible biological richness.

The park also contains some of the oldest land in Costa Rica, which emerged from the sea more than 85 million years ago.

# Adventure Tours La Cruz

## Boat tour

Awaken your senses on a boat trip to the remote beaches of La Cruz, tucked away around the town among the mountains and ancient geological formations. It's a postcard-perfect sight your eyes will never forget. Although most of the boats in the area are used for fishing, there are some tour operators that offer tourist services. Their knowledge of the region makes it easier for them to understand the weather and the best time of day to sail to the unknown spots and some other snorkeling areas, near different islands.

resilience to climate change. As a result, they have been intensely studied by biologists.

## Kite surfing

The beaches of La Cruz are an unparalleled location for practicing and learning kitesurfing in Costa Rica. The number of wind gusts make the coast perfect for professionals and beginners alike. There are several kitesurfing academies where you can learn and practice this interesting sport.

Kitesurfing is a very young aquatic sport that has spread rapidly through the world's beaches. Tourists with a passion for this incredible sport are drawn to the coastlines of Isla Bolaños, Playa Copal and Playa Papaturre.

The equipment used is a board that glides over the water pulled by two ropes attached to a large kite. As the kite catches the wind, it can reach the extreme speeds needed for extraordinary jumps, or go at a more leisurely pace to just enjoy the sea breeze.
